To Whom It May Concern:

I have been working with Greg Piehl (DVM Solutions) for 4 years. Greg has provided me with excellent products and service. The relationship with DVM Solutions does not end with the sale. Greg provides only quality products; you can be assured that every product he carries is worth your time and consideration. He also provides unmatched customer care after the sale.

Most recently, I purchased two VetGards and two PC-Vets. I am extremely happy with both products. They do everything exactly as Greg told me they would when he sold them to me.

Above all, Greg is honest and ethical. When I need a piece of equipment, I call DVM Solutions. I do not need to price shop. DVM Solutions offers me quality products and service at fair prices. I give DVM Solutions my highest recommendation for your equipment needs.

You are welcome to call me at Heartland Animal Hospital 402-731-6655 anytime to discuss any of my dealings with DVM Solutions.

Andrew L Kliewer, DVM
